

Expanding development opportunities in Ecuador

Project Title	Expanding development opportunities in Ecuador
Project Summary	Conduct political analysis and needs assessments to help expand the breadth of USAID programming in Ecuador.
Country	United States
Country/Region of Focus	Ecuador

Project Description

The small Ecuador team is looking for a driven, creative, and resourceful intern to take ownership of projects that benefit of some of Ecuador's most vulnerable populations. The improved operating environment and political openness give USAID the opportunity to address unmet needs in Ecuador following the closure of the USAID/Ecuador Mission in 2014. The DC-based USAID/Ecuador team looks to take advantage of these improvements to include Ecuador in programming manage elsewhere in the Agency and would like assistance in conducting the necessary research and concept design to achieve that. We hope the internship will offer the selected candidate valuable experience learning about the full range of development work at USAID, exposure to the different USAID bureaus and offices, and how development ideas are translated into action.
